

Scan4Safety

Helping the NHS save lives and millions of pounds

GS1 Conference
Lagos, Nigeria
September 2019

Cara Charles-Barks

Chief Executive

Cara Charles-Barks is the Chief Executive Officer of Salisbury NHS Foundation Trust, and has a wide range of clinical and management experience in the healthcare industry. She has completed both a Masters of Nursing and Masters of Business Administration.

Born and raised in Australia, she began her career in healthcare by qualifying as a registered nurse in 1991.

From there she worked in London for three years, before returning to Australia where she rose through the ranks: first becoming a nurse consultant, then clinical practice manager and finally Nursing Director of The Queen Elizabeth Hospital in Adelaide.

Cara moved back to the UK in 2008, taking the role of Deputy Chief Operating Officer in Peterborough. Prior to coming to Salisbury, she was Deputy Chief Executive Officer and Chief Operating Officer at Hinchingbrooke Health Care NHS Trust.

Salisbury Hospital

Our services

Scan4Safety Programme

Right Patient

Setting standards to make sure we always have the right patient and know **what** product was used with **which** patient, **when**.

Right Product

Setting standards to make sure our staff have **what** they need, **when** they need it.

Right Place

Setting standards to make sure that patients and products are in the right place.

Right Process

Setting standards and implementing common ways of working to deliver better and more easily repeatable patient care.

One of six Trusts in UK to successfully complete pioneering Scan4Safety programme.

SCAN4SAFETY **NHS**

Implementation results

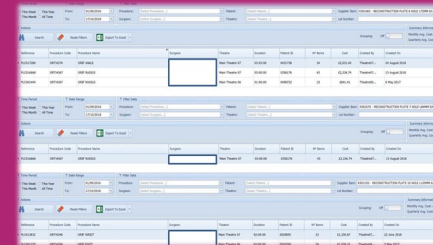

Safety

Patient ID and product scanning enable improved safety

Traceability

Product Recall process now quick and accurate

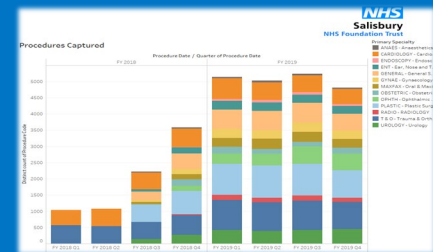

Efficiency

Supply chain transformation has released clinical time

Visibility

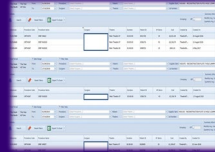

Data has driven standardisation in clinical practice

Clinical engagement

Inventory Management System

Live inventory enables better control, removing product management tasks from clinical staff and driving rationalisation (2 hours per week)

POC Scanning

Ensures products are traced directly to patients, offering safety alerts and improving product recall process

Supply Chain Transformation

Consolidating and streamlining services to remove tasks from clinical staff and reduce impact of deliveries to clinical areas (2 hours per week)

Surgical Kitting

Supply chain initiative to save clinical staff initiative to save clinical staff procedure preparation time, resulting in efficiency and assurance (12 hours per week)

What next?

Meeting the challenges facing the NHS

Ageing population
and long term
conditions

Increasing
costs/funding gap

Professional
shortage

NHS Long Term Plan

Emphasis on prevention and improve services – ‘joined-up’ care

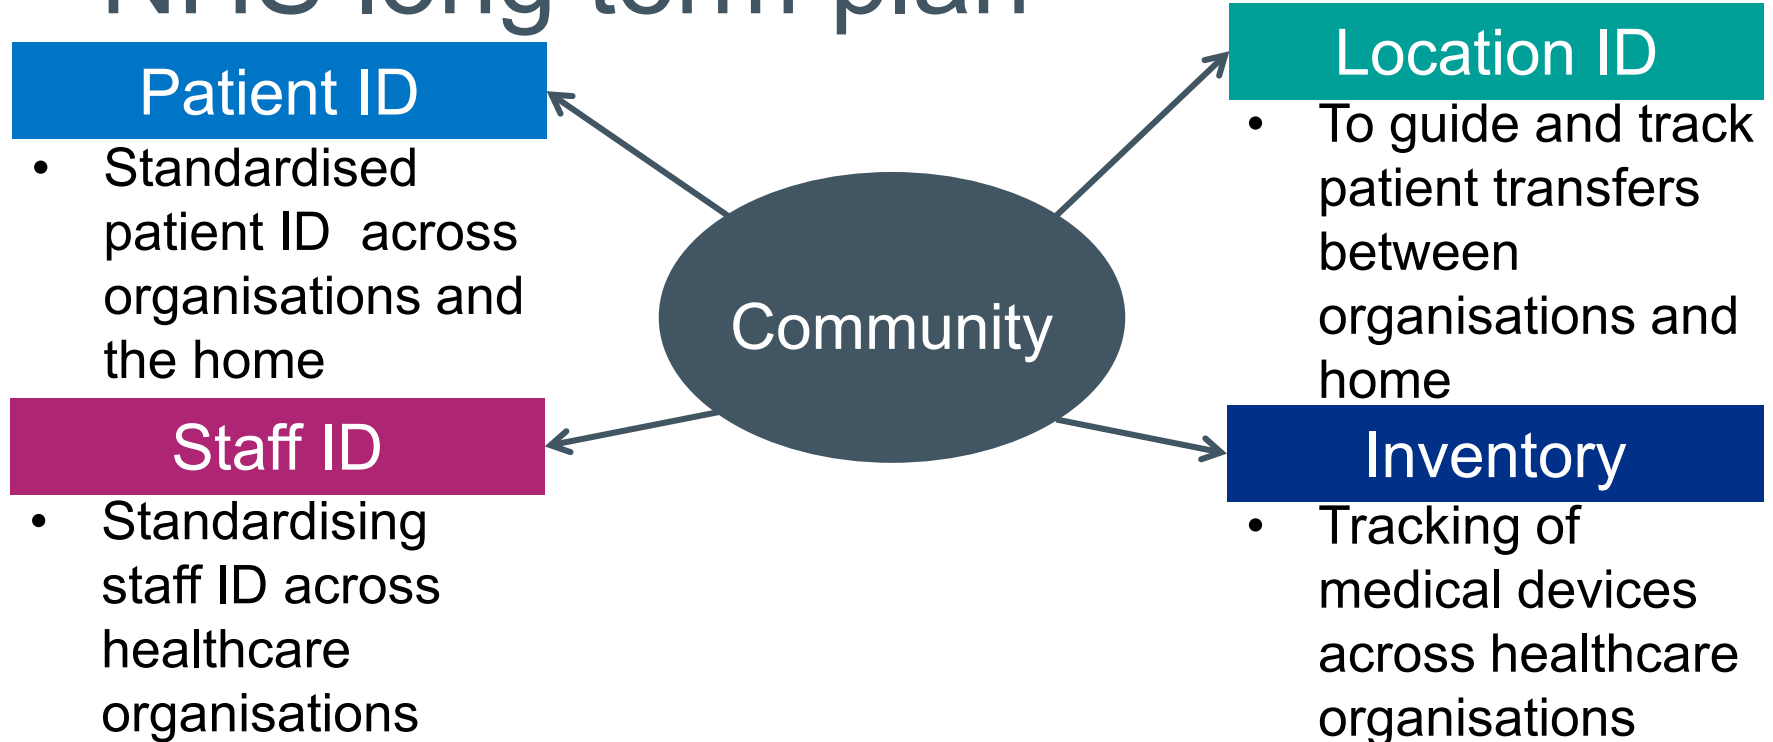

Focus on mental health

Use of cutting edge treatments, data and technologies

Fiscal drivers

Scan4Safety can support NHS long term plan

Transforming services within Trusts can lay foundations
for **transformational change across wider NHS.**

SCAN  SAFETY
Patient. Product. Place. Process.

The logo for SCAN4SAFETY features the word 'SCAN' in blue, followed by a blue square containing a white plus sign, and the word 'SAFETY' in blue. Below this, the tagline 'Patient. Product. Place. Process.' is written in a smaller blue font.
